### Directors' report

The directors are pleased to present their report, together with the financial statements, of the consolidated group consisting of Rhinomed Limited and the entities it controlled (the 'Group') at the end of, or during, the year ended 30 June 2022.

#### Directors

The following persons were Directors of Rhinomed Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

- Mr Michael Johnson (Executive Director and Chief Executive Officer)
- Mr Ron Dewhurst (Non-Executive Chairman)
- Mr Brent Scrimshaw (Non-Executive Director)
- Dr Eric Knight (Non-Executive Director)
- Assoc. Prof. John McBain (Non-Executive Director)

#### Principal activities

The Group's principal activities are research, development and commercialisation of consumer and medical devices. There were no significant changes in the nature of the Group's principal activities during the financial year.

#### Dividende

There were no dividends paid, recommended or declared during the current or previous financial year.

#### Review of operations

Rhinomed is a wearable nasal and respiratory technology company.

Rhinomed is actively seeking to improve the way millions of people around the world breathe, sleep, take medication and maintain their health by utilising the nose as a site for the delivery of novel solutions. We achieve this goal by assisting people to overcome nasal breathing issues, such as congestion and obstruction, and socialise 'wearing' a device in the nose in order to solve high value unmet needs in the global consumer health, diagnostic and drug delivery markets. Our strategy is to ensure our products are on the shelves of the world's leading pharmacies with leading clinicians and practitioners who recognise the impact nose, and upper airway has on a wide range of health issues.

The focus during the year ended 30 June 2022 has been to optimise Rhinomed's wearable technology platform across both the growing sleep and respiratory consumer health markets and strategic entry in the high value diagnostics market.

The loss for the Group after providing for income tax amounted to \$5,281,038 (2021: \$8,638,926).

The Group held cash reserves of \$1,989,138 at 30 June 2022 (2021: \$2,339,616), a decrease of \$350,478 from the previous year. As at 30 June 2022 the Group's net assets were \$5,034,638 (2021: \$4,763,833) and the net carrying value of the Group's intangible assets was \$1,870,108 (2021: \$2,231,736).

The Group loss of \$5,281,038 consists of an operating loss of \$5,238,161 (decrease of 39% compared to FY21), depreciation and amortisation costs of \$699,459 (up 18% compared to FY21), and employee benefit expenses of \$3,885,332 (down 26% compared to FY21). For the year ended 30 June 2022, there were no non-cash amounts relating to options granted (2021: \$2.1 million).

Net cash used in operating activities was \$5.71 million up from \$5.18 million in FY21. Operating expenditure is aligned with revenue generation and investment to support the sales growth in key markets. This includes the continued growth and roll out of the Mute technology and as a result, Mute sales represented 61% of total revenue during FY22.

While the Group's COVIDSafe Plan has remained in place for the majority of the year, the Rhinomed team has continued to deliver on key milestones towards the successful delivery of our technology to customers.

#### Rhinoswab

Since releasing the Rhinoswab program in quarter one of FY22, Rhinomed has received purchase orders and commenced supplying the NSW government and the Victorian government, each for an initial one million unit Rhinoswab order as part of their program to support testing capability. Further, Rhinomed has created the world's first nasal swab designed specifically for children - The Rhinoswab Junior<sup>TM</sup>, which is compatible with PCR and Rapid Antigen Tests.

In 2H FY22, Rhinomed successfully closed two critical supply deals which will deliver significant revenues over the course of two years anchored by a minimum production requirement of 32.5 million Rhinoswab units. Delivery will commence in Q1 FY23 for both deals.

In response to significant demand both domestically and internationally, production capabilities have been significantly expanded now with Australian based production as well as Chinese based production. Rhinomed is continuing to develop additional manufacturing partners to meet demand globally and also to diversify production sources to mitigate any supply chain disruption risks.

Total Rhinoswab revenue for the year ended 30 June 2022 totalled just over \$3 million.

#### Consumer Health

The Consumer Health business continues to experience robust growth across our three key markets, USA, EMEA, and APAC. Despite the pandemic effect on pharmacy foot traffic, Rhinomed has experienced strong growth via both global networks and through online ecommerce with Mute becoming the #1 internal nasal dilator in the US.

The Group added the Giant Eagle retail chain situated in the USA northeast, while in the UK, Mute has been added as a line in Holland & Barrett, a leading health and wellbeing chain. This followed further expansion in the Walgreens chain earlier in the year. Although the Australian market has been in lockdown in both NSW and Victoria, the Group has grown its pharmacy numbers in Australia via the rollout of Mute in the API pharmacy network, increasing sales to APAC wholesale distributors by 15%.

To aid the expansion into Europe a new subsidiary has been set up in Germany, Rhinomed EU GmbH, particularly to assist with the European DTC and Amazon implementation which is currently in progress. Amazon UK has also been set up with revenues commencing in Q1 FY23.

Total Consumer Health revenue for the year ended 30 June 2022 totalled just over \$6 million which represents 393,500 units shipped. This is an increase of 38% compared to the units shipped in the prior year.

#### Outlook

The company remains focused on delivering growth based on key metrics:

- Growing and owning the sleep/snoring category in core markets
- Expanding success with US Amazon and DTC (online) into new markets EU and UK
- Building the snoring category with retail partners in the USA to make it a destination category
- Increasing distribution amongst or existing key accounts in our key geographic markets
- Building out the Rhinoswab global production network with a 100 million swab production capacity
- Pursuing the significant pipeline opportunities for the Rhinoswab and Rhinoswab Junior roll out
- Delivering strong high margin revenue growth

Rhinomed is well placed to continue to execute its strategy of commercialising its platform technology by expanding its strong and growing presence in the USA, EMEA and APAC markets. Further, with rapid antigen tests now the default testing and screening methodology globally, the opportunity to provide a superior user experience while improving the overall effectiveness of the rapid antigen test is a clear point of differentiation for rapid test makers. With the increased global demand for nasal swabs, the Rhinoswab and Rhinoswab Junior™ are a perfect addition to the Group's pipeline of opportunity.

#### COVID-19 impact

Despite the global pandemic, Consumer Health units shipped increased by 38% compared to the prior year. Although lockdowns eased up across a number of our key markets, retail sales were consistent compared to the prior year due to the decrease in foot traffic caused in the prior year, however, revenue derived from online sales significantly increased by 142% compared to the prior year. This is due to the focus to expand sales in other online platforms. Online sales represented 62% of total revenue for the year ended 30 June 2022 (compared to 39% in FY21). Amazon is the Group's largest customer with Amazon US alone growing by 149% compared to the prior year. Mute and Turbine sales have demonstrated strong growth due to the strategy to shift focus onto Amazon as a customer and sales growth is expected to continue to grow with a strategy to target Amazon EU in FY23.

Rhinomed has identified the need to target the global demand for high comfort, high yielding nasal swabs. Nasal swabs are the preferred sampling method used in suspected cases of whooping cough, diphtheria, influenza, and various types of diseases caused by the coronavirus family of viruses, including SARS, MERS, and COVID-19. The development of Rhinoswab and Rhinoswab Junior™ builds on the Group's expertise as a world-leading developer of nasal devices and enables mass, high frequency sample collection designed to capture a superior sample yield. This will greatly enhance the global response to the COVID-19 pandemic. As noted above, Rhinomed has generated a significant revenue stream from Rhinoswab and with two supply deals for 32.5 million units over two years, a compelling opportunity exists in a global high growth market.

#### Significant changes in the state of affairs

There were no significant changes in the state of affairs of the Group during the financial year

#### Matters subsequent to the end of the financial year

Subsequent to 30 June 2022, the Group received two purchase orders from BTNX Inc and Surescreen Australia Pty Ltd totalling 1.75 millions swabs at commercial in confidence pricing, as agreed in previously announced supply agreements. This provides further validation of the focus on the Rhinoswab as a material business line.

No other matter or circumstance has arisen since 30 June 2022 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

#### **Environmental regulation**

The Group is not subject to any significant environmental regulation under Australian Commonwealth or State law.

| Proceeds from issue of shares                                    | c    | C C 4 F 0 0 7 |              |
|  | 6    | 6,645,007     | - (22, 402)  |
| Share issue transaction costs                                    |      | (263,252)     | (22,403)     |
| Lease principal repayment  |      | (165,018)     | (158,092)    |
| Net cash inflow/(outflow) from financing activities              |      | 6,216,737     | (180,495)    |
| Net decrease in cash and cash equivalents                        |      | (368,008)     | (5,406,481)  |
| Cash and cash equivalents at the beginning of the financial year |      | 2,339,616     | 7,757,474    |
| Effects of exchange rate changes on cash and cash equivalents    |      | 17,530        | (11,377)     |
| Cash and cash equivalents at the end of the financial year       |      | 1,989,138     | 2,339,616    |

## Notes to the consolidated financial statements For the year ended 30 June 2022

## Note 1. Operating segments

The Group has identified one reportable operating segment; that is, the identification, acquisition, and commercialisation of late stage consumer therapeutic and medical delivery technologies at Rhinomed group level as one consolidated operation.

## Note 2. Revenue from customers

The Group derives revenue from the transfer of goods at a point in time.

|  | 30 June 2022 | 30 June 2021 |
|--|--------------|--------------|
|  | \$           | \$           |
| Revenue from customers for the sale of goods | 9,104,727    | 3,894,908    |
| Note 3. Other income                         |              |              |

| Rhinomed Inc.                                       | United States   | 100.00%            | 100.00%      |  |
| Rhinomed EU GmbH<br>(incorporated 14 December 2021) | Germany   | 100.00%            | -            |  |

## Note 9. Events after the reporting period

Subsequent to 30 June 2022, the Group received two purchase orders from BTNX Inc and Surescreen Australia Pty Ltd totalling 1.75 millions swabs at commercial in confidence pricing, as agreed in previously announced supply agreements. This provides further validation of the focus on the Rhinoswab as a material business line.

No other matter or circumstance has arisen since 30 June 2022 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.
